Working with International Students to Impact the World

Uenatur di tempat untue Menuai di luar

Local Action, Global Impact

An increasing number of international students are coming to the UK and a significant number come to know Jesus during their studies. Many will return to difficult situations, facing pressures from families and/or the authorities. Come and be equipped and encouraged so you can better serve and disciple international students, who become Christians, to serve Christ for the rest of their lives back home.

Hear from OMF and Friends International missionaries who about how they work amongst overseas students living in the UK.

Tea and coffee will be available. However no lunch will be provided. We suggest that you bring your own packed lunch.
